

Call for Papers & Theme Issues

The International Journal of Thinking Objectively (<http://www.ijto.org>) is looking forward to e-publish papers on thinking objectively – www.ijto.org/about, and any of the topics in the keywords at: <http://www.ijto.org/keywords> To be responsive to the changing needs of thinking objectively research communities, IJTO maintains a flexible keyword system that allows the addition of new keyword groups and areas periodically. This journal is specially, devoted to the documentation, evaluation, and assessment of the thinking objectively in all the topics or any of the topics in computing. The International Journal of Thinking Objectively (IJTO) is an on-line, peer-reviewed publication, published four times in the year by vriSoft, Inc. This e journal is designed specially for the use of computer science, engineering researchers, theoreticians, practitioners, educators and software and system developers in any field of computing. The important mission of IJTO is to provide its readers with timely, qualitative, well-written, and interesting state-of-the-art papers and special features (columns, book reviews, software reviews) that deal with every aspect of thinking objectively in any topic in computing, both theoretical and practical in nature. Topics in the e journal will include any area of computing, and will offer case studies. The columns, both guest and regular, will be written and composed by recognized specialists and experts in the field of knowledge and computing. The IJTO will be a quarterly journal. We invite you to submit your papers to IJTO – www.ijto.org. Please check the IJTO Editorial Charter at <http://www.ijto.org/editorial-charter> and submit the complete manuscript through our submission and review system <http://www.ijto.org/paper/index.html> IJTO focus is thinking objectively in any area of computing. You will have the opportunity to refine and extend your ideas with help from knowledgeable and supportive fellow subject area enthusiasts and experienced editorial and domain expert boards’ members. In addition to intensive and iterative papers’ reviews, submitters and subscribers will have many opportunities to discuss many aspects of thinking objectively through discussion group at <http://www.ijto.org/en/forum.html> The papers submitted for review should be between 10-15 pages long (around 5,000 to 6,000 words). Since the paper size is relatively small we encourage authors to submit supplement materials. All submissions should identify a principal contact author by e-mail address and/or fax and/or telephone number and postal address. We understand how much effort goes into creating papers and accordingly, we aim at a careful, fair treatment of all papers. All of us are committed to doing everything to satisfy our authors' expectations! We will work very closely with authors to get their papers to the right quality, shape, and form to be published in IJTO.
